## Advanced Inmate IP Telephony

© Peter Reinacker / pixelio.de

**PrisonCom** offers scalable IP telephony solutions that are based on learned experiences and improve existing processes, services, and revenues in prison facilities worldwide. But, first and foremost, PrisonCom ensures reliable, 100% monitorable inmates' telephony at fair rates.

All PrisonCom communications solutions are controlled and monitored by the PriSec ControlCenter central management system. Prison facilities benefit from maximum surveillance provided by numerous comfortable functions, such as black and white lists selectable up to each inmate, listening in, recording and logging of calls, billing via virtual inmates' credit accounts and many more. The exclusive use of high quality hardware components *made in Germany* ensures decreasing downtimes and maintenance costs.

PrisonCom IP telephony reflects the very specific needs of prison facilities' daily routine and can be offered by means of:

### PRISONPHONE

- Vandalism resistant IP telephone especially designed for prison use
- Superior digital sound quality while using small IP bandwidth
- Connected via CAT 5/6 cable or standard two-wire analog line, no external power needed
- Real-time remote monitoring and configuration of all functions

### PRISONCALL

- Vandal-proof emergency signalling system according to DIN VDE 0834
- Offering additional telephone and Intercom options for the prison cell
- Including triple LED signalling lamp for installation in the hallway
- Malfunction sensors and a tampering alarm against manipulations

### PRIVACYPHONE

- Smart and secure telephony solution that allows inmates phone calls in the privacy of their prison cell
- Transparent, secured plastic housing for wall mounting or usable as set-top box for setup on even surface
- Free choosable telephone times, easy, intuitive handling, high automation

### PRISONMEDIA

- Prison cell media system
- Available in versions: TV or tablet PC
- Features (modular): IPTV, IP telephony, radio, film (VOD, DVD, recordings), music (MOD, CD), Internet, email, e-learning, counselling, notice board, shopping and many more
- Secured against unauthorised openings

Opting for PrisonCom prison facilities worldwide decide in favour of expanding both functionality and security, reducing downtime, relieving workload, and therefore opt for increased satisfaction among all involved.
